

Naturtrend Pflegemilch NPM

Product description

Naturtrend Pflegemilch NPM is a care product and consists of natural raw materials. Naturtrend Pflegemilch NPM contains water, carnauba wax, candellila wax, bees wax, shellac wax, shellac and natural emulsifier.

Range of application

Naturtrend Pflegemilch NPM is ideally suited for the maintenance and aftertreatment of oiled or waxed floors, staircases, etc.

Application

For the initial care of newly sealed surfaces (after 8-10 days at the earliest): Apply Naturtrend Pflegemilch NPM evenly and undiluted. In case of older and/or dirty surfaces clean first with Naturtrend Holzbodenseife NHS. After drying apply Naturtrend Pflegemilch evenly in a thin layer with an absorbing cloth ball, either in the delivered viscosity or slightly diluted with water. The addition of water results in a flatter effect. After approximately 90 minutes polish with a coarse cotton cloth. Without polishing Naturtrend Pflegemilch dries on in a silk lustre fashion. Aftertreatment with clear water should not occur.

| Viscosity at delivery DIN – 4 mm | liquid |
| Shelf life in unopened original batches | 2 years |

Special notes

- Material is frost sensitive. Do not process under +5° C.

Zweihorn products are produced for the professional user, who has a basic knowledge of the stockturn and the application of stains, varnishes, glazes and glues. The user information for our qualities given in the leaflets should be regarded as non-binding recommendations. They are based on our test series and experiences and should facilitate and promote the work of our clients. A possible necessary adjustment to the individual working conditions lies within your responsibility. If in any doubt, our material experts as well as our application and laboratory technicians will try to help you as best as they can. We guarantee of course the impeccable quality of our products based on our General Sales and Delivery Conditions. All current technical data sheets are herewith voided. The use of the final product lies entirely within the responsibility of the buyer. As long as we haven't guaranteed in writing specific characteristics and suitabilities of the products for a contractually agreed purpose, any advice or information given regarding the application, even if the advice or information is given to the best of our knowledge, will be non-binding. Nor does it relieve the buyer, either from his own inspection, and if need be through a trial processing. Furthermore, we are only liable according to Chapter 1 of our General Conditions for advice either given or rejected, which does not refer to the characteristics and use of the delivered product.
