Re: QMS certified according to ISO 9001:2015

Currently we have not a certified Quality Management System - QMS - according to ISO 9001:2015; by the way, we have been still working and continue managing our processes according to our internal requirements and those of the ISO 9001 standard.

Last year we wished to certify again our QMS, but we had difficulties in finding certifying bodies for auditing due to the covid-19 pandemic. I trust we certify our QMS when the pandemic finishes.
